Re: Stated Sponsored Genocide of Amhara People in Ethiopia

We, the Amhara Community in UK wrote you on 4th of May 2020 regarding our concern of Genocide of Amhara people in Ethiopia that we are awaiting for your response. We appreciate if you take the letter seriously and investigate the horrendous human right violation against Amhara to create awareness to the international community and stop this crime against humanity.

On the 29th of May 2020 you released a new report about the horrific human rights violation by Ethiopian security force that we have noticed the gap in your report from the truth in the ground. The report does not include the three dimensional human right violation against Amhara in Ethiopia that threaten its very existence. This might be due to the lack of understanding of Ethiopian politics, history and the interest of the different players.

Currently the major players in Ethiopian politics who control the power are TPLF and OLF who were fighting for liberation of their respective ethnic group and create independent states for half a century by destroying the Ethiopian State. The other stockholders are too weak to bring a difference in Ethiopian politics at the movement. Both TPLF and OLF consider Amhara and Ethiopian Orthodox Church as anchor of Ethiopian unity that could be an obstacle for the formation of their respective future independent state and labelled Amhara as enemy in their foundation manifesto.

Even though there are different organisation with the name of Oromo people all of them work together to the same goal set by OLF for independent OROMIA State as Tigray Organisations with TPLF for Tigray independent state. The third political player, the Prosperity party lead by Ahmed is an umbrella organisation for both TPLF and OLF, which work for the independence of OROMIA and TIGRAI independence state, disintegration of Ethiopia and eradication of Amhara and share the Amhara land among the two future respective states. PM Abiy Ahmed is a member of OLF who have been brain washed by OLF old master since he was a child to hate Amhara. He believes Ethiopian values, history and symbols are Amhara's and enemy of OROMO.

PM Abiy Ahmed pretends as leader of Ethiopia to mislead the international community and the Ethiopian ordinary public, he works with OLF and TPLF to destroy Ethiopia and create two respective independent state. All work intensively together to destroy first Amhara, Ethiopian Orthodox Church, all values and symbols of united Ethiopia, which they believe an obstacle for the formation and stability of their future independent state. He coordinated the killing of Amhara regional leaders including Dr Ambachew Mekonnen and Gen. Asaminew Tsige, local militia farmers (Fano) and dismantle the regional security force in 15th June 2019 put under federal army emergency command the region committing genocide of Amhara.

Therefore, if you investigate the human right violation in Ethiopia bearing in mind the above facts and our letter sent on the 4th of May 2020, you could find the truth in the ground and expose to international community and stop the genocide crime against Amhara. We believe you have been deceived by OLF, TPLF and Abiy Ahmed supporters in your investigation that lead to your new human right violation in Ethiopia report on 29th of May 2020 and it didn't take in account our letter.

We are disappointed with your new report for lacking to take in the account the 60% Amhara living in all corner of Ethiopia who are institutionally killed, displaced and denied the basic human right to survival which is organised by Ethiopian government lead by PM Abiy Ahmed, his security force with OLA-OLF and TPLF. Your report does not take in to account massacre of Amhara by coordinated force of Ethiopian Federal army and terrorists (TPLF, OLF and Mercenary Qimantshango). We believe the report is biased and cover up the crime of OLF, TPLF, mercenary Qimant extremist and Abiy Ahmed. We hope you will correct the report to include the true institutionalised human right violation or genocide of Amhara and please inform Guardian which echo your wrong report.

PM Abiy Ahmed government sponsored Oromo extremist parties (Oromo Liberation Front OLF, Oromo Federalist Congress OFC, Oromia Prosperity party and Oromo Democratic Organisation), and Tigray People Liberation Front TPLF with TPLF mercenary Qimant-shengo to eradicate Amhara people from its homeland Ethiopia. He is the master mind of Massacre of 86 Amhara, burning of 36 Orthodox Church and kidnapping of 17 university students within a day in Oromia region with OLF, Jawar Mohamed and Bekel Gerba. Oromo Liberation Army-Oromo Liberation Front (OLA-OLF) and TPLF works for PM Abiy Ahmed and deceived the world as if they are oppositions. The Ethiopian Army, Intelligence and all important government bodies is under total control of OLF and Abiy Ahmed.

Qimant and Amhara are the same people who lived together for thousands years peacefully with the same culture and language. The Qimant-shango is mercenary armed and employed by TPLF to kill Amhara. TPLF and OLF are both extremist terrorist organisation who consider Amhara people and Orthodox Church as their historical enemy and fight for the last 45 years to eliminate Amhara from the face of the earth, which is indicated on their foundation manifesto of both organisation. PM Abiy Ahmed is OROMO extremist and member of OLF with his own admission who have been brain washed to hate Amhara since he was 13 years old.

Amhara genocide is a complex which is systematically coordinated by Oromo PM Abiy Ahmed, OLF, TPLF and extremist mercenaries. The Ethiopian government used COVID-19 as biological weapon to kill Amhara people by deliberately disseminating the SARS-COV-2 virus in Amhara region and imprisoning the Amhara leaders including Captain Masresha Setie, over 53 Amhara special commanders and FANO in overcrowded person during pandemic without due course of justice. The Amhara genocide is a well document crime on humanity for the last 45 years which is intensified recently since Abiy Ahmed become prime minister in 2018

Amhara people are killed, attacked and displaced from its homeland by complex network of state sponsored criminal Oromo, and Tigray terrorist organisations. The genocide of Amhara people is intensified and world keep blind eye for the continuous killing, displacing and migration of Amhara.

If you need further information, evidence or documents. Please do not hesitate to contact us,

Sincerely Yours,

Amhara Community in United Kingdom (UK)
