Re: Amhara Genocide in Ethiopia

The Amhara people have been massacred by Oromo and Tigray extremists directed by their respective terrorist organisation (Oromo Liberation Front (OLF)-Oromo Democratic Party (ODP) and Tigray People Liberation Front (TPLF)) who control the Ethiopian government political and security apparatus for the last thirty years. The genocide of Amhara is supported by the regional and federal government official and security forces. The ethnic cleansing, genocide or massacre of Amhara intensified for the last 3 years since Abiy Ahmed came to power sabotaging Ethiopian people struggle for freedom and fundamental democratic change by getting rid of EPRDF and ethnic federalism once for all. He had misled the Ethiopian people and the world in particular Amhara promising utopia and transition to democratic united Ethiopia by his infamous slogan 'when we are alive we are Ethiopian, on death we are Ethiopia'.

As we speak the ethnic cleansing is intensified from the North in Tigray 534 innocent civilian Amhara children, women and elders are massacred by TPLF armed forces in Mycadera in addition to the ethnic cleansing and massacre of Amhara soldiers in the Northern Federal Army division by coordinated operation of the Tigray region special force, militia and the member of the Federal army of Tigray origin. In the South and western Ethiopia in Oromia region (Horoguderu), benishangual region (Metekael) and southern region (Guraferda) Amharas are killed by coordinated forces of OLF, OFCO, TPLF, Qero (Oromo extremist youth mob) and Oromia region special forces. Over 8000 Amhara massacred or slaughtered like animal, millions displaced and their livelihood destroyed worth billions of dollar while the PM Abiy Ahmed denied the massacre misleading the international community since 2019. In Horoguderu, wellega province of Oromia region 300 innocent civilian Amhara forced to gather in the school hall and massacred by OLF armed forces (OLA), within an hour the federal army stationed deliberately ordered to withdraw from the area by the order of commander in chief of the Federal army (Abiy Ahmed) against the warning of public to facilitate the genocide.

The Amhara genocide is supported by the government of Ethiopia as part Oromoma agenda of the Prosperity party lead by Ably Ahmed of the Oromo Democratic Party (ODP), Oromo Liberation Front (OLF) collaboration. When Abiy Ahmed came to power in 2018, he deliberately allow to enter the OLF armed terrorist organisation and Oromo extremist activist Jawar Mohamed with his Oromo Media Network (OMN) used to promote hate speech against Amhara and supported them financially to facilitate the ethnic cleansing of Amhara from Oromia region and from southern central and western Ethiopia as part of his plan of Oromoma or creating independent Oromia. While he had a chance to eliminate the TPLF in 2018 weakened by freedom fighters, he allow the TPLF criminals to settle in Tigray region, organise themselves and destabilise the Amhara region.

The genocide of Amhara people in Ethiopia fulfil the present United Nation (UN) genocide convention. Genocide means acts committed with intent to destroy, in whole or in part, a national, ethnic, racial or religious group, as such: killing members of the group; causing serious bodily or mental harm to members of the group; deliberately inflicting on the group conditions of life calculated to bring about its physical destruction in whole or in part; imposing measures intended to prevent births within the group; and forcibly transferring children of the group to another group. Amharas massacred, their property and church destroyed, TPLF-EPRDF sterilised young Amhara ladies, disfranchising Amhara living outside the Amhara region, kidnapped Amhara children, displaced and deliberately modify or reduce the public census of Amhara region to reduce the regional budget that lead to poverty, which is manifested today by stunt of Amhara children.

In the twentieth first century under TPLF, OLF and PM Abiy Ahmed government genocides became more systematic, more extensive, and more deadly. They also became far more thoroughly imbued with an ideological character, with the claim, the utter destruction of Amhara would pave the way toward a future of unlimited prosperity, uncontested power, and cultural efflorescence for Oromia and Tigray. In short, regimes practicing the genocide promised utopia to their followers. Through this utopianistic ideal of ethnocentrism, its advocates have imagined a homogeneous society of Oromia or Tigray. It is underscored through research the most genocidal perpetrators of the 20th century were revolutionary regimes of either fascist or communist commitments (Nazi Germany, the Stalinist Soviet Union, Cambodia under the Khmer Rouge) or states in the throes of some kind of uneasy revolutionary transformation (the late Ottoman Empire under the Young Turks, the former Yugoslavia under Slobodan Milosevic, Rwanda under the Hutu). Each of these regimes promised their followers a brilliant future once the enemy was destroyed.

Whenever the public opposition or pressure get momentum against the Amhara genocide and start to getting the attention of the international community, Abiy Ahmed government divert the attention using rhetoric of national unity, killing national figures and pretending as if he doesn't know the crime or symbolic jailing of his criminal comrades like Jawar Mohammed and Bekele Girba or opening war to his friends of war criminal TPLF junta who will be freed once the dust is settled. In the meantime while the attention is focused on the war or jailing of prominent figures, ethnic cleansing of Amhara people intensified in other parts of Ethiopia in Oromia and Benishangual region. He wrote his the misleading ideology in his book titled Erkaḅ ena Monber'by telling utopia one could lead the public to the cliff and push them from cliff once they get to the edge of cliff like showing the green to oxen at the edge of the cliff. He is a dangerous racist fascist and nazist self obsessed mentally unstable Oromo extremist with burning hate of Amhara

The utopianistic rhetoric pattern followed by the EPLF-TPLF-OLF axis was similar to the Soviets, or the Nazis, which stated that the Amharas, where they were considered the extreme threats, should be eliminated by any means necessary. After the cessation of Eritrea, the TPLF-led EPRDF and OLF followed the same ideals and started the genocidal activities against Amharas all over Ethiopia. Amharas were considered outcasts: traitors, blood-suckers, parasites, neftegnas etc... Just like Soviet socialism, the TPLF-EPRDF republic, can only be saved by purging the Amharas which ranged from forced sterilisation to horrifying mass genocides and displacements.

What we are witnessing today in Ethiopia is a continuation of the Oromo (Galla) invasion that started in the mid-16th century even though they never lived before that in Ethiopia. They migrated from the lower east coast of Africa upwards north and resided in the current Mombasa area and sprung from there expanding up north using a gangster culture called the Geda. Geda which means invasion is a criminal organisation's looting and killing strategy. Every Luba rules for 8 years and is replaced by a new one. In order for an Oromo individual to become a luba he has to kill as many people as possible especially men and boys and become abageda first and then luba. They came and occupied Ethiopian provinces through mass genocides in the 16th century following the invasion of Ahmed Gragh.

In the OLF rhetoric the Amharas are “culture-destroying race” and should be destroyed ultimately. According to the speeches of fanatic Oromo and Tigrian leaders such as Ezkiel Gabissa, Jawar Mohammed, Bekele Gerba, Tsegaye Ararsa, Shimelis Abdissa and Meles Zenawi, the Amharas should be eliminated through a war of annihilation in which one side would triumph and the other would be utterly destroyed.

According to these Oromo fanatics, Oromo's health and prosperity would be restored and become even greater through the victorious struggle against the Amharas. With final victory Oromia as a nation would be powerful, its rule uncontested, its domination feared. As a people, Oromo would be productive and prosperous, with freely flowing water, freshly flowering plants, and smiling people. Everyone would be joined in a racially homogeneous grouping, with healthy members and the elderly well cared for. TPLF and OLF are both extremist terrorist organisation who consider Amhara people and Orthodox Church as their historical enemy, which is underlined in their party foundation manifesto to eliminate Amhara from the face of the earth. PM Abiy Ahmed is Oromo extremist and member of OLF with his own admission who have been brain washed to hate Amhara since he was 13 years old. This is a part of the plan of Oromonisation of Ethiopia by ethnic cleansing of non-Oromo, changing the demography and create homogenous Oromo State in land of Ethiopia, if not to create Oromia independent state.

Therefore, Amhara in diaspora are calling the international community, particularly the United Nation (UN), western countries UK, USA, EU, RUSSIA, China and Human right organisation to intervene in Ethiopia immediately to stop the Genocide of Amhara and further humanitarian catastrophe. This moral and legal obligation of the united nation to protect the crime on humanity and to avoid the mistakes seen during genocide Kosovo and Rwanda by delaying your resolve. Amhara people are killed, attached and displaced from its homeland by complex network of state sponsored criminal Oromo, and Tigray terrorist organisations. The genocide of Amhara people is intensified and world keep blind eye of the continuous massacre, displacement and migration of Amhara. We are calling the UN, EU and AU security force to intervene in Ethiopia by sending UN-peace keeping force to protect Amhara people and their property from further genocide urgently, and support those who become homeless displaced from their home by the terrorists (TPLF, OLF, Qero) and regional special forces and Abiy Ahmed government. We also calling the western main stream media, Facebook and Al-jazeera to report the ultimate truth and expose the genocide of Amhara to the international community instead of covering up the truth misguided by the OLF and TPLF terrorist organisation, activists and PM Abiy Ahmed misleading rhetoric.
