Re: Genocide of Amhara in Oromia and Benishangul-Gumuz Region in Ethiopia

I am deeply disturbed by the genocide of Amhara people in Ethiopia by Oromo extremists. I am writing for your help to raise the issue in the House of Commons for motion of intervention to stop Amhara genocide by UK government mobilising the international community (United Nation). Unless an independent body from the international community urgently intervene to stop the massacre of Amhara and Orthodox Christian in Oromia and Benishangul-Gumuz administrative region, these will be the humanitarian catastrophe of the century. The genocide of Christian Amhara is deliberately facilitated and supported by government officials, security force, oromo political parties (OLF and OFCO), TPLF, Oromo and Tigray activists. Due to the institutional nature of the genocide an independent international investigator could enter in Ethiopia to investigate the genocide and bring those responsible for the ethnic cleansing for justice and provide humanitarian aid for the survival of genocide to prevent further humanitarian disaster in Ethiopia. The genocide of Amhara is intensified in the last two years beyond one could imagine worse than the genocide in Rwanda, Kosovo and the Holocaust by Nazi in Germany. The massacre, burning and distraction of Amhara and their property is still going on now as we speak. The Ethiopian government deliberately keep a blind eye and denies the genocide of Amhara people.

From October 2019 to October 2020 over 2000 innocent Christian Amhara people were slaughtered skinned alive dismembered, burned, dragged, and stoned to death, 100,000 Amhara displaced and 10,000 houses and business of Amhara entirely burned down by Oromo terrorists group called Qero who are organised by Oromo Liberation front-OLF, Oromo Federalist congress-OFC, Oromo Democratic Party-ODP (Oromo Prosperity Party) supported by government security forces in Oromia region and Addis Ababa following the assassination of artist Hachalu Hundessa in Addis Ababa by OLF, and in Benishangul-Gumuz region by collaborated OLF and TPLF armed forces. The Ethiopian government federal and Oromia regional security forces stood-by while Christians Amharas massacred and their livelihood/church were burned down and even supported the criminal terrorist group by providing information, list of Amhara people/their property and logistics. In addition to the regular federal army and federal police of Ethiopian Government, the Oromia region trained 600,000 Special Forces in the last 2 years on top of the regional police and yet the government failed to stop the preparation leading to the current Amhara genocide in 15 different occasion. The security forces failed to protect the massacre from terrorist murderer group called Qero who are armed with sword, firearm, knives, stone petrol fire and gun. "Qero" is group of young bachelor Oromo extremists who have been trained brain washed, organised, funded and take order from the Oromo political organisation (OLF, OFC and ODP), government officials (Oromo Prosperity Party) and activists to massacre Amhara and burn down Orthodox Church. TPLF and OLF are both extremist terrorist organisation who consider Amhara people and Orthodox church as their historical enemy, which is underlined in their half a century old party foundation manifesto to eliminate Amhara from the face of the earth.

Amhara genocide is a complex systematically coordinated by government institutions, political parties and extremist mercenaries. The Ethiopian government also used COVID-19 as biological weapon deliberately disseminating the SARS-COV-2 Virus in Amhara region and among prisoned Amhara leaders and 53 Amhara special commanders and 1000 of local young Amhara militia (FANO) in over-crowded person during pandemic without due course of justice and destroying house of Amhara in the middle of the

pandemic in Addis Ababa and Oromia region by the government. The Amhara people culture, language, religion, values and intellectual have been intentionally destroyed and vilified for years by Tigray and Oromo extremist parties symbolising Amhara as Neftegna /Temkhetegna, and institutionalised the genocide of Amhara in Federal and regional government organisational structure of Ethiopia that allow the massacre, sterilisation and displacement, burning property and church of Amhara, and deliberately manipulated the public census to deprive the Amhara region that eliminated over 15 million Amhara. The genocide of Amhara people fulfil the definition of The United Nations Genocide Convention and Convention on the Prevention and Punishment of the Crime of Genocide (CPPCG) and developed through all stages of genocides of human right watch. The Amhara genocide is a well document crime on humanity for the last 45 years which is intensified recently since Abiy Ahmed become prime minister in 2010.

The current prime minister of Ethiopia Abiy Ahmed was a member of OLF and currently leader of ODPPPP(Prosperity Party) who brought the Oromo terrorist organisation OLF and extremist Oromo activist Jawar Mohammed with his hate speech Oromo Media Network from exile to Ethiopia and funded with Ethiopian tax payers money and allow them to rob 25 banks and freely broadcast hate speech on Amhara and failed to protect the genocide of 86 Amhara, kidnapping of 17 Female University students and burning of 42 church in Oromia region called by Jawar Mohammed, Eskal Gabisa and Bekele Gerba, while he disarm and actively prevent Amhara people from organising in to political party to protect themselves. He allowed the killing of Amhara regional leaders (Dr. Ambatchew Mekonnen, & Gen.Asamenew Tsega) to weaken the balance of power that lead to several Amhara genocide by Oromo extremist Qero in the last two years since he took office denying the right to live as human because of his fear and hate-rage of Amhara. The government imprisoned innocent Amhara human right activist and political leaders Eskendr Nega, Aster Seyum, and Sintayehu Chekol, Lidetu Ayalew because of their ethnic Amhara origin instead of the criminal Oromo and Tigray extremists who massacred innocent Amhara Women, Men, Children and Elders. The Oromo extremist also terrorising Amhara who are even living outside of their homeland around the world including in EU, UK, Canada and USA. The Oromo extremist Qero destroyed Emperor Haile Selassie's I of Ethiopia monument in London and terrorising Amhara community caused bodily harm in London, which is reported to police.

Regardless of call and warnings from human right activists and Amhara in diaspora, the government deliberately keep blind eye and denied the ethnic cleansing of Amhara by Qero who took direct command from OLF and the government officials. He is responsible for killing of the Amhara local militia (FANO) and dismantle the Amhara regional security force on 15 June 2019 and put the Amhara region under federal army emergency command who are committing genocide in region. The Ethiopian Army Intelligence and all important government bodies is under total control of OLF and Prosperity party. The Oromo Liberation Army - Oromo Liberation Front (OLA - OLF) and TPLF are working for PM Aby Ahmed and deceived the world as if they are in opposition.

Therefore, the Amhara community in diaspora are calling the international community including the UK to act immediately to stop the genocide in Ethiopia by deploying UN peace keeping force to protect Amhara people and their property from further genocide and support those who became homeless displaced from their home by the terrorists. We are also calling the western government to bring the Oromo and Tigray extremists living in their respective country who are in-sighting genocide of Amhara for justice. I am also requesting the police to give protection Amhara in UK from attack by Oromo extremist (Qero) and bring those criminal accountable for justice and put the Oromo extremist in the list of terrorist organisation. Please do not hesitate to contact me if you need further information and evidence of the Amhara and Orthodox Christians genocide in Ethiopia mentioned above.

I look forward hearing from you and swift action.

Sincerely Yours
